Electric wood chipper “SED” is intended for shredding biomass:

- » trees in a round condition
- » scrap wood
- » wood waste from sawmill production

- ☒ The wood chipper is made with quality components such as electric motors with increased efficiency class.
- ☒ It is equipped with passive and active protection systems during operation and maintenance.
- ☒ The control kit is on Touch Panel and supported by PLC.
- ☒ Comes with a tool for adjusting the position of the knives (shortens and simplifies the regular maintenance).
- ☒ We can deliver the following accessories according to the customer’s wishes:

» log conveyor » input conveyor belt » metal detector » conveyor belts and chain conveyors
